This

Being

Our

Visit

&

Chat

For

APRIL 2020

My Dear Friend and Fellow Member,

You should all be aware that I did not send out any Chat Letter or Lessons in March. Due to the Covid 19 outbreak in the USA, Illinois had called for a *Shelter in Place* order which began on March 16. If that wasn't enough I was also preparing to move before the end of the month. I did post the Chat Letter on our Facebook Page, *Friends of Hugh G Carruthers* in hopes that many of you would see it there. I do apologize for that and ask your forgiveness. Those who had agreed to get their Lessons and Chat Letters via Email did receive their Lessons and Chat.

I have just emailed all of those for whom I have an email address on file. (And, I do hope it won't be too long before we are distributing all the Lessons and Chats that way.) Doing so will save a lot of time, paper (the trees will be happy), and postage as well as leased equipment required. Our website which desperately needed a *fresh look* is receiving one now which will allow us to make our materials available via download from which you can certainly print out if you desire.

I am so used to working in the office, it has been difficult to stay productive working from home. And what I need seems always be to be where I am not! I used to think that I could multi-task, but realize now that I was just kidding myself. Even the first week or so in my new home, I would be finding a place for things in the kitchen. Then decide it belonged in another room, head there to find its proper place and end up working in the other room for a while until drawn back to the first again. Continually going back and forth.

There is also adjusting to a new *NORMAL*. To repeat what I said in the opening of my Letter in March: "I feel a bit at a loss for words this month with the United States now

experiencing the Corona virus pandemic. It feels like I just woke up one morning and found myself in the Land of Oz. Very early in March before any shut downs or runs on toilet paper, I saw my Chiropractor for an adjustment and to see what I might need to keep my immune system up to speed. Pleased to let you know I am healthy and well.”

There are many times I am excited about the opportunities for change this is bringing us. Like an environmental reset..... no smog in Los Angeles, dolphins swimming in the canals in Italy, the return of wild life in our National Parks and forests to name just a few. Yet there are still times it is depressing and times I miss getting together with friends, times it’s lonely making dinner for one, and oh, I do miss the hugs. YET, I believe there will be Good Positive things coming out of this COVID 19 experience.

The Chat Letter I decided to use this month, is from 1958. I thought it was apropos, as it covers *the importance of applying the principles of this Knowledge of Theological Science for Perfect Health and well-being.*

Going to you now are my thoughts and good wishes. May you ALL enjoy a lovely Spring.

Blessings and Abundant Health to each of you,

Rev. Ann B Schmitt
Director, TSS

FROM THE STUDY OF
Hugh G. Carruthers

Prior Right Established 1958, by:
Hugh G. Carruthers, Founder-Director:
The Theological Science Society, Int.
of The Hugh G. Carruthers Foundation
(Rahind Rama Bohisat, I-A, (XI))

My beloved Chela:

Come, sit with me in Thought, and let us reason together.

I would that I could impress upon every one of my loved ones the importance of applying the principles of this Knowledge of Theological Science for Perfect Health and well-being. Health of body and mind is a science and an art, and not, in any respect a haphazard matter, or affair. We ALL CAN live and enjoy Life more successfully Here, Now, IF WE WILL.

One is what he thinks, acts, breathes and eats: an individual potential entity, working out his own salvation amidst his environments. Food is consumed and by the digestive apparatus is put into the blood-circulating system. Air - or, rather, the Life-giving chemical element in the air, which we know as Prana - is breathed into the lungs, and oxygen is put into the blood and, as a constituent of it, circulates with it to all the tissues of the body.

The blood, composed of oxygen and the elements of our food - water included - builds and replenishes the body; and while in the body the circulation of the blood is a life-necessity. Nitrogen is also inhaled and taken into the blood stream - (nitrogen, the negative element: oxygen the positive) - but neither gas goes into the blood. It is their effect on the inflating and deflating lungs which brings about all the necessary results and effects. As the grand Hebrew Prophet said: "*O Lord, how wonderful are Thy works!*"

An inhalation, in its widest sense, means that the effects of oxygen have reached all parts of the body. Thinking and muscular activity cause oxidization of food, forming carbon dioxide and other products; and warmth and strength and life are thus manifested. More than half the waste, or used, matter thus produced leaves the body by way of the lungs; being carried thither in the blood from all parts of the body. This exit of waste product is an exhalation.

The ingoing (or inhalation) and the outgoing (or exhalation) of these gasses constitutes respiration. Speaking in general terms, life consists in the in-go of oxygen and food, and their chemical combining - and their out-go, consciously, sub-consciously, or unconsciously.

What one exhales would be harmful if it remained in the body; but it is food for the vegetable kingdom which analyzes this carbon dioxide, retains the carbon for its tissues and returns the oxygen to the atmosphere, which is inhaled by the animal kingdom for renewed life.

The products of the vegetable kingdom are eaten by man and the lower animals; thus it is apparent that man and the animal kingdom helps to feed the vegetable kingdom, and the vegetable kingdom largely feeds the animal kingdom. Here we see the Divine Law: we serve, and we are served. (Co-operation; or "one hand washes the other") We get as we give!

The mineral kingdom also serves the vegetable and animal kingdoms, and, in turn, is served by them. "*Cast thy bread upon the waters; for thou shalt find it after many days,*" is evidence of the Wisdom of Solomon, as see **Ecclesiastes 11:1**. Put thy breath "*Put thy breath into the air all about thee* (The Infinite Omnipresence): *for thou shalt find it after many days.* Or, in other words: "*The Lord giveth, and the Lord taketh away.*" Or, as The Master Teacher put it in another way: "*Render unto Caesar the things which are Caesar's, and unto God the things which are of God.*" Or, "*And as you would that men should do to you, do you also to them likewise.*" **Luke 6:31**

One inhales Life, oxygen (from the plant kingdom) and Prana (from the ether- and exhales carbon dioxide which is life to the plant kingdom. Life and Love! And this breathing and eating and their results are superintended by the Thinking Mind. If and when the three factors - Thinking, Breathing and Eating are in co-ordination and efficient, and equilibrium is established when is the condition we know as health. If, or When, Health does not manifest,

then one, or two, of all these factors are inefficient, and one experiences the condition known as dis-ease, or ill ness (the absence of ease). In any case Thinking should be recognized as the Leader or “chiefest of all” . . . or most important.

It has been given unto me to have covered a very wide field in my range of thinking, and I have, I believe, made use of the best materials available for that purpose, and since I have been curious, as a priest, student, physician, scientist and, I hope, teacher, for many years with wide and almost unlimited experience and investigation - and have “sat at the feet” of some of the greatest and grandest Teachers, I have felt at home quoting from the Scriptures of the Old and the New Testaments, and the discussion of the Sciences and the Arts, the Philosophy, and the ancient Wisdom of the earlier Sages; and since I have found it imperative to speak openly against some of the great evils of the days of my years, I hope my clerical, medical and scholastic brethren will not take offense, nor censure me too harshly if perchance I may have “stepped upon their toes” in my frank discussions, lectures and writings against false teachings and contravention of Truth in our schools of instructions, in our churches, in the Public Press, and in the home - from the evils of which this generation is now suffering severely because of the world’s unprecedented crime wave.

Religion is of little use if it only seeks to prepare us for a Life hereafter. It is of infinite value and service if it seeks to make this earth-plane life more livable, more desirable, and the world a better place of condition; therefore Happiness is the principal goal. The Time To Be Happy IS NOW. The Place to Be happy is Here; and the Way to Be Happy is to help make others so, by trying to demonstrate the Kingdom of God outwardly through Thought, Word and Deed.

I would dare to suggest to you that the Bible is more than a Book. It is an inspired Library. It may truly be said to be a record, or chronological history of a people (Israel) who have often demonstrated a genius for finding God. It was evidently not written and compiled to teach history, or literature, or science, but Religion - A Way of Life in conformity with Natural law; and yet we find that It covers history, literature and science completely. It was written and recorded to aid mankind to find God - and whether one finds his God in a personal Being, or in natural Law, or in the omnipresence of Intelligence and Thought-power, or however, the fact remains that One who attempts to live Here without God, walks alone and is, as a rule, quite helpless, because his Thinking does not consider his own remarkable Personal Power to Be and Do and Have whatsoever he make seek and desire, fortified by The Universal Power and Intelligence Which sustains and maintains the Universe about him, and Which, being omnipresent, IS within him - in Mind, as Thought.

The Bible does not always agree with Science, for Science’s standards change; but God. The Infinite Omnipresence, or Father within, doe not change; nether is God a product of evolution. The First of All Life was God, or Deity, Which has Been from All Eternity. Time never was when Life and God was not The Highest Principle. But evolution of Life and living things leads to the appreciation of the at-one-ment of All Life, making God omnipresent as Infinite Intelligence and, therefore, in part, or degree, WITHIN All things.

This is true because of the apparent evidence of The Cosmos. The individual did not create Himself, nor did he create His God - he merely imagines What he considers to Be his God; and He, Himself, is Spirit - an illusion. If he blindly accepts and believes what is told to him by others allowed to do his thinking for him, he is under the yoke of mental slavery to whoever he allows to do his thinking for him. Under the known present systems of education, the individual is NOT truly educated; he is “graduated” because of his demonstration of his ability to express the thoughts of others who have been before him. In short, his education is of borrowed knowledge, which is not Understanding nor Wisdom.

A true Knowledge of SELF leads to a Knowledge of Deity - That Which (or Who, as you please) IS The Universal, or Cosmic, Intelligence as a reign of Natural Law - Cause and Effect - everywhere in existence, and the Same at every point of Its, or His, Omnipresence. In fact, there could not logically be any place in universal existence from which God could be absent, since the absence of Deity, or Law, would allow for chaos. And since there is not the slightest evidence of disorder anywhere within the observable Universe, it follows that God, The Infinite Omnipresence, or Supreme Presence-Power, MUST be everywhere present - and therefore a definite part, or degree of “The Father” WITHIN you.

This is why The great Jewish Master of Galilee, and EVERY Master of Occult Wisdom, was able to state: *“The kingdom of God is WITHIN you.”* And you locate the “kingdom of God WITHIN you mentally -as a Thought. Whoever recognizes That Truth will reason with Infinite Thought-power and enjoy Success in all his Ways. This may be said to be “religious” Knowledge but there could not be a purely religious Knowledge, for Knowledge constitutes Knowing, and we can Know ONLY by applying the principles of Knowledge for proof, which will be all the evidence required for the control of Thought and the conditions of everyday life.

Nor is this philosophy a purely scientific Knowledge. The standards of Science are not fixed; they shift and change as we develop new instruments of measurement. But the standards of the Bible do NOT change; hence this inspired Volume of Books affords our only conception of God, and of The Masters of Wisdom. Its basic standard is *“Love (reverence) of God, and love of thy neighbour as thyself,”* for you and your fellow man are spiritually One in Infinite Omnipresence. Upon this universal standard *“hangs all the Law and the Prophets”* and it has been the transgression of- or non-conformity to- this Universal Law which has caused the chaos on earth -- of crime, wars, greed, and all the evils we know.

Therefore I say unto you: *“What things so ever you desire, when you pray, BELIEVE that you receive them, and you shall have them.”* Mark 11:24.

If we desire peace on earth, or the Brotherhood of mankind, or even our individual petty wants, as courage, freedom from worry, unlimited ability to Be and Become, and Do and Have our desires – prosperity or abundance, perfect Health, the Happiness of well-being – ANYTHING whatsoever– we MUST learn to develop the ability to create the Cause of these in the ONLY way we can create and make manifest our desires – by concentration on constructive, positive Thinking, the making of mental pictures of our desires, for subconsciousness expression of the Natural Law of Cause and Effect and Its related Law of Attraction, by the operation of Which mentally and spiritually – “our own MUST come to us,” as John Burroughs so well said.

“There are two things,” said Immanuel Kant, “which fill us with awe because of their sublimity . . . the starry *heavens* above us, and the moral Law within us.”

The *Fatherhood* of God (Infinite Mind) and the Brotherhood of Man are fundamental truths which should have been made to Be the basis of Religion; for they are always the Same and never change. They were the fundamental principle of the ancient Wisdom Religion; but were changed to conform with the objectives of the self-styled priesthood in the desire by the Church leaders to put and keep their blind-believing followers in fear of what could not be understood, and subjection to the Will of the Church.

There is a Higher Law than to Know the Truth – and the knowledge of The Truth leads to the realization of That principle: It is the Law of Love and self-sacrifice, for It is the supreme Law of Life and binds us to our God and our fellowmen.

The mathematician has the easier problem to make his theories and facts agree, because he is concerned with only two factors: Time and Space.

The chemist has three factors with which to contend: Time, Space, and Composition.

Next in order is the physicists: to him is added the fact of energy.

The psychologist has the added fact of Mind with which to deal. His task is not as difficult, however, as is that of the sociologist... while the greatest, most important task of all is that of the theologian; for he must deal and contend with All the elements, as well as with The Spirit, or Soul.

The less we have to deal with, the less liable are we to make mistakes: the less liable are we to be compelled to change our standards.

The longtime imagined surest and safest of the scientists – the mathematician – has had to change. And just when he felt secure in his position, along came a German Jew named Albert Einstein (undoubtedly reincarnated out of a glorious Past) and with his theory of Relativity (or At-one-ment) he has set up new standards for the mathematician, and confounded many who have relied on science alone.

Some of the late Doctor Einstein’s formulae are understandable by the ordinary scientists; some are so difficult that few mentalities can comprehend them. Mathematicians tell us it is no longer true that a straight line is the shortest distance between two given points, but none have as yet given proof of that contention; and not too many years ago Professor Sylvester, of Johns Hopkins University, one of our greatest mathematicians, said:

“Mathematics is that subject in which we never know anymore what we are talking about, or that what we say is true.”

Even within our own memory the standards of physics have so changed that we are now lost in a wilderness of ignorance and uncertainty. When I was a student in College the atom was

considered to have been the smallest particle of matter possible in the universe - although I was a rebel and challenged that theory frequently; and could only tell my Dons (teachers) that while I could not explain How I knew, I did Know that the atom held within itself the nucleus, or nuclei, of components - and when I would try to explain that “a strange inner intuitive prompting and guidance: supplied that Knowledge Within me - I must have prompted them to imagine me to be a “visionary,” or a “dreamer,” if not a deliberate liar.

It was only after many years that I later learned that my intuitive guidance was correct and today science tells us that the atom is made up of an infinitesimal number of electrons and protons... which, thanks to My Elder Brothers in the astral world all about us, I knew, and Knew that I knew - even before the scientific names had been given to these nuclei. Modern Science does not Know the half of It as yet; does not know that in our universe are worlds within worlds; and that within the next successive Age (or even during the end of the present Aquarian Age) we shall know that molecules and protons are composed “Cycleons” (not yet coined for identity), or “Mentreons” - septimal in nature.

“We look at the things which are seen; and fail to “look” at the things which are not seen; for the things which are seen are temporal; but the things which are not seen (by mortal eyes) ARE eternal.” (Because they are to be seen through our spiritual eyes; and we are led to them by our Elder Brothers Who have long since passed this Way, and Know!) See **2nd Corinthians 4:18**.

NOTE: I entreat you to withhold a request for further detailed explanation. Please do not, like James and John, the sons of Zebedee, seek too much before you have made ready to receive. See **Mark 10:35-45**. You shall Know in the fullness of time. See also **John 4:14** - and then read **John 4: 32:33, 34** and condemn me not.

Modern science is seeking to reduce everything to nothing. The scientist is seeking always to reduce complex phenomena to a few fundamental ones. As Thomas Huxley once put it: “In ultimate analysis everything is incomprehensible, and the whole object of science is simply to reduce the fundamental incomprehensibilities to the smallest possible number.”

The chemist took the thousands of substances and reduced them to combinations of ninety-two chemical elements.

The physicist proceeded further and reduced the 92 elements to different combinations, or configurations, of two elemental things, i.e., the negative electron and the positive electron or proton.

And now we see that they have gone a little further and reduced the electron and proton to one substance. That one substance is called ether that fills All space.

Since the ether cannot be seen, felt, weighed, measured or in any other way made tangible, it comes pretty close to answering an ordinary definition of “nothing”. So, it seems that the so-called scientists are reducing everything to nothing - or attempting to do so.

The late Sir Oliver Lodge advanced the idea that the proton might be a right-hand whirl or eddy in the ether, and the negative electron a left-handed whirl.

According to this theory, a head-on-collision of a proton and an electron taking place in just the right way would eliminate both and reduce them to ordinary ether in the normal quiescent state; and scientifically speaking this is nothing; so science is bent on reducing everything to nothing, and therefore in the ultimate and final analysis science has no standards.

Proud Science sprang from the womb of stupid ignorance; stumbled awkwardly enough through long ages of folly before she could firmly plant her feet upon the eternal rock of fact; but Divine Truth - and ONLY Divine Truth, is Eternal.

The Only true, provable Science is Theological Science. It was not born; neither can it die. It may often be obscured in the clouds of falsehood, or buried in the debris of brutish ignorance, but It can never be destroyed nor disproved. It is All that Is, or Was, or ever can Be. It exists in every atom, lives in every flower, and flames in every star, and when the heavens and the earth shall pass away - as both the Bible and Science say they will - and the universe returns to cosmic dust, Divine Truth of Theological Science, The ancient Wisdom, shall live on amidst the crush of matter and the wreck of the worlds, and resurrect anew, just as the individual who develops the ability to become a Theological Scientist, has, in several instances been demonstrating, that he or she CAN resurrect the body to desirable health, and the conditions of their lives to affluence and happiness, by force of Will. Which is why, like Him and Them, we may say "I Am the resurrection and the life!" Be ye therefore children of your Father Which Is IN heaven within you, and enjoy the fruits of The Vineyard Here Now, in preparation for Your Being There Then, Where, as The Revelator said: **Rev. 22-27.**

22 "And I saw no temple therein; for the Lord God Almighty (That 'I') and the lamb ('I' AM) are the temple of It.

23 "And the city (Heaven; Nirvana; the New Jerusalem) has no need of the Sun, neither of the Moon, to shine in It; for the glory of God (You) shall lighten It; and the ('I') Lamb is the Light thereof.

24 "And the nations of Them Which are saved (through Wisdom and Understanding) shall walk in the Light of It; and the Kings (great servants) of the earth bring Their glory and honour into It.

25 "And the gates of It (the twelve gates or Signs of the Zodiac) shall not be shut at all by day; for there shall be no night there. (The evolutionary flow of reincarnations of Souls shall have no ceasing)

26 "And they shall bring the glory and honour of the nations into It. (The spiritual Brotherhood of Souls Who were of The Brotherhood of Man in the earth-plane; shall know no war, nor greed, nor

distress - and All will be served by The Lodge of Elder Brothers
Who Are The Perfected Men)

27 “And there shall in no wise enter into It anything that defileth,
neither whatsoever abomination, or maketh a lie; but They Which
are written in the Lamb’s Book of Life. (Those Who have
responded to The Infinite summons after having perfected
themselves Here, in this “school room” through Understanding of
Occult Science, Which IS Theological Science - The ONLY
Science Which explains the At-one-ment of God and Man).

Theological Science is, indeed, The sublime Religious Philosophy of the Aquarian Age,
which explains why all orthodox religions and their false teachers so readily condemn and vilify
this oldest of All religious philosophies out of which All known religions have sprung - and why
the late Helena Petrovna Blavatsky, the late Comte de Saint-Germain, and the Aquarian
Bodhisattva - as well as Emmanuel, The Apollonius of Tyana , and every Master of the Ages,
have been persecuted and ridiculed by those who fear the steady, rapid (if seemingly slow) return
to The Wisdom Religion.

Though you may not be aware of it, you, my beloved, are the elect. You are of “The
Chosen People,” chosen to receive This Knowledge. Be ye therefore wise as serpents and
harmless as doves, and prepare yourself, and help your neighbour to prepare himself or herself,
for the Glory of God in eventual godhood, for which You were born into this earth-plane
existence.

Although my daily correspondence, and the work before me is heavy enough to very
often prevent my grateful acknowledgment for every recommended prospective candidate for
Fellowship in and with The Theological Science Society, you may be sure I am, indeed, grateful
to all of my loved ones who have so kindly suggested Membership to friends, relatives and
acquaintances who have enrolled and become my beloved chelas. And, as has been proved
many times, I am sure that those you recommended, and have become your Fellow Theological
Scientists, will sooner or later thank you. After a newly adopted chela has received four to six
lessons, he or she will very often write to thank me for this New Knowledge - often telling me
they had no idea that such information and instruction as Theological Science was to be
obtained; that many of them had been asking for just this for many years, and adding that they
are happy to have, at long last, found the very Truth in Theological Science for which they had
long sought, felt sure existed somewhere, but had never been able to acquire.

You see, therefore, how important it is for you and me to “cast our bread upon the
waters” and help as many others to have what we have as we possibly can. The Religion of the
future is to Be the Wisdom Religion of the Past - Which has long been hidden from the profane
eyes of the ridiculing ecclesiastics who have their axe to grind. Truly, “there is nothing new
under the sun.” If you have studied ancient history you must have noted how many of the
Prophets predicted the rise, or resurrection, of the ancient Wisdom Religion “when mankind
shall have become unwilling to stumble in the Darkness of ignorance any longer,” saith Isaiah.

I would willingly, fearlessly, ask any individual on earth today - regardless of the religious faith he professes - excepting a Theological Scientist who professes the Wisdom Religion as his philosophy of Faith) “ have you ever heard of, or known, any religious philosophy, or any sect, or church, that has taught and explained YOUR At-one-ment with God - The Infinite Omnipresence and the creative nature of Thought, whereby you may be saved from the ignorance which prevents so many millions of persons on earth from learning to enjoy Life fully - in good health, the ability to Think logically and reason, and the happiness which attends peace of mind and well-being?”

The known religions, sects, societies, churches, and groups of today ALL without exception - teach utter and complete dependence upon Deity in one form or another - BUT NEVER explain Deity, nor locate their Source of mental and spiritual Power and Intelligence - other than to teach that God is in “heaven” - pointing toward the skies - and that All “sinners” are in “hell,” and then state they base their doctrine on the gospel of Jesus Christ.

By “Jesus Christ” they mean the Jewish Teacher of Galilee Who was born and baptized Emmanuel, the Son of a Jewish girl named Mary who was the daughter of Joachim, perhaps the wealthiest merchant in Palestine, and who bore her Son out of wedlock - later being married to Josephus, the son of Jacob of Matthan, who himself was at the time a member of the Essences - an Order of celibate Hebraic priests who lived and taught at the lamasery which today is known as the “Church of the Holy Sepulchre,” the same lamasery which was under the direction of Nicodemus, the therapist (doctor) who treated, revived, and cared for the young Mystic Emmanuel, Who had returned to Palestine to teach His own people the mysteries of the ancient Wisdom Religion on His return from the Orient - and for which the Roman Centurions, under authority of Herod , the Governor, arrested, crucified, and exiled Him from the land; which prompted His return to His Teachers and Fellow- Initiates at the lamasery of Changu-Nahrain, in Nepal; which is why there is no grave, and no one has ever found His grave, because He lived out His glorious life, and responded to the Infinite summons while in His ninety-sixth year, at Changu-Nahrain. Did any Christian clergyman ever explain that Truth?

O, do not misunderstand me; many so-called Christians are worthy men and women. The sect known as Quakers; and the Mormons likewise, are honest, respectable people; but like the Protestants and the Roman Catholics, they teach a wholly in understandable, illogical religious philosophy, based upon the falsely taught death on a cross by crucifixion - which NEVER happened. He was hung on a cross - which was the method of either punishment, or death, in that time - much as electrocution, or the gas-chamber, or, as in some places, hanging is the method of execution today.

To be suspended on a cross for from one to three hours, was punishment; but to be suspended beyond the third hour, was death. For reference, read the 45th and 46th verses of the **Matthew 27** (which I quote for you)

45 “Now, from the sixth hour there was darkness over all the land unto the ninth hour.

46 “And about the ninth hour Jesus cried with a loud voice, saying, ‘*Eli, Eli, lama sabachthani?*’ that is to say, ‘My God, my God, why hast Thou forsaken me’?”

If you reside in or near a College town, step into the College and ask to talk with the Professor of Foreign languages; and when you are with that gentleman, ask him to interpret that question which Jesus is supposed to have uttered. If he is a Sanskrit and Hebrew scholar he will corroborate the fact that the utterance, correctly translated, is this: ‘Elim Eli, (Lord, Lord) lama (Holy One, or priest, or mendicant, or teacher), sabachthani -sa (I AM, or I Know) bach (thou art, or thou should be_ thani (with me; or within me).

If there is a Rabbi in your city or town, who was trained and educated in Germany, or in Austria, or in Oxford University, England (at Oxfordshire) that worthy gentleman ought to be able to translate that utterance for you also.

[NOTE: The Lamsa Bible, so known because it is the translation from the ancient Eastern text- the Aramaic of the Peshitta, by George M. Lamsa records the 46 verse as follows: “And about the ninth hour, Jesus cried out with a loud voice and said Eli, Eli, lemana shabakthani! My God, my God, for this I was spared!]

The revisers of the Bible (the council of Fifty-four) of King James, did a good job for the king and the ignorant Christians, but a very bad job of translation for the world of Scholars. The Master Emmanuel DID NOT cry out in a loud voice; for He had been hanging on the cross for nearly three hours - and after three hours of suspension on a cross He could not have cried out loudly.

History (NOT Roman Catholic history - which is a record of what the Church calls “history,” but a record, in fact, pleasing to the Church) tells that when His body was lowered from the cross, it was turned over to His Brother of the Lodge of Essences (Mystics), who took it immediately into the lamasery, where the therapists (like a physician of today) revived, treated and cared for Him for twenty-one days. He then departed to travel to the home of Philo, the Jewish Master at Damascus, from whence Philo helped Him to set forth by caravan for his journey back to the Orient, via Periopolis, Lahore, India, Darjeeling, India, and across the border into Nepal, and to the lamasery of Changu-Nahrain, where He spent the remainder of His life.

But of all this, what need you care? Why be bothered about How He was born, or How He died; or Where? You should be interested in What He taught that you CAN do - by the control of your thinking and acting, to improve yourself and your life and affairs for a desirable Way of Life. If and when you develop yourself to the ability to realize Your At-one-ment with The Infinite Omnipresence and All Life; and master your creative Thought-power - you will KNOW - without any necessity for corroboration, that the *kingdom of God* IS WITHIN you - and NOT somewhere afar off in the skies; and which is more, you will have forsaken blind belief and gross religious ignorance, and be FIT to bring the kingdom of God on earth, in your everyday Life and Affairs for the benefit of all others with whom you come in contact - and your whole Life will BE changed desirably.

Ye are, indeed, my disciple. Help me to bring this Truth to others. Help me to make this Mission of the Aquarian Age Brotherhood the emancipation of ignorant humanity.

Help me to maintain and promote this philosophy of religious Freedom to all who will accept It. Help me to help as many other men and women as we can reach - and "great will be your reward in 'heaven';" - meaning in peace of mind and ability to become worthy of the Success your desire. If I know anything about religious methods, the fear which dwells in the average mentality; the dread of the "loss of salvation" threatened by the religious teachers and so horribly feared by those who cannot, or will not, Think courageously - who NEVER question the false teachers; who NEVER learn the true method of prayer; who NEVER develop any real honest idea about God, and "hell" and "heaven," I KNOW that like many others, you do, or you have, donated Offerings and Gifts, which are, and have been used for promotion of the fearful, destructive doctrine of false teaching in the Name of The Christ.

Your Christ IS and Was a Jew. He was NOT a Christian. He never heard about any such religious philosophy as a "Christian religion." The so-called, man-created "Christian religion" did not appear until late in the Third Century, and then It was written for dissemination, and the inculcation of fear in the masses, by ignorant, lazy, monks who preferred the idle life of the monastery to work- and who transcribed what they were told about, by their superiors who knew no more about Emmanuel The Master than they, the poor, mendicant monks, knew which was nothing.

So, if you subscribe to the Truth of spiritual and mental At-one-ment of All mankind and All living creatures and The Infinite Omnipresence, and you can , or you have, applied the principles of Creative Thinking, why not DARE to Think courageously, and emancipate yourself form fear and worry, from lack and limitation, from sickness which is no unnecessary, from failure in achieving and attaining - and re-read your earlier Lessons and Understand why this noble Jewish Teacher was willing, glad, to commit His Life to helping you and me to "love the Lord, thy God, with all thy heart, and with all thy soul, and with all thy mind; and thy neighbour as thyself" (not omitting thy Jewish neighbour).

The Aquarian Brotherhood of Man in the Fatherhood of God knows nought about differences of opinions, nor colours of skin, nor conditions of being. A Brother, and a Sister, delight in helping each other. "As you would that men should do to you, do you likewise unto them."

My good wishes and love are with you; and every day, at sunset, when I commune with you and our remarkable Fraternity, I prayerfully affirm your well-being. Will you think to affirm well-being in His and Their and your care and guidance? Thanks, I bless you. May the gods love you as I do.

Your servant, pastor, and friend,

Hugh G. Carruthers, B-XI
